BRIGHTENING PEEL

ALCHIMIE FOREVER

Alchimie Forever launched its first professional-only peel, Alchimie Forever Brightening Peel. It contains a combination of acids—citric, lactic, glycolic, mandelic and salicylic—as well as Alchimie Forever's signature

blueberry extract to improve the texture, tone and pigment of the skin, leaving it brighter, softer, rejuvenated and radiant.

The peel also has been formulated to yield results for all skin types, including sensitive skin and for use on the sensitive décolleté area. Available in spas and medical spas. www.alchimie-forever.com
