Building a Niche Clientele  
The State of Esthetic Licensing

### Alchimie Forever

Hosting a spa breakfast event at New York's Mezzanine Spa in SoHo, the company presented its new Swiss-developed natural cosmeceuticals skin care line to the beauty press and skin care experts. Products are made of natural botanicals, such as green tea, rosemary, grape seeds, tomatoes and basil, to prevent the formation of free radicals and protect the skin from environmental damage. 877-920-7546, customerservice@alchimie-forever.com
