Body Lotion Perfect for the Warmer Months

Alchimie Forever's body products contain powerful natural antioxidants... This lightweight, rapidly-penetrating formula, fortified with jojoba seed oil, moisturizes the skin without leaving a trace. Antioxidants derived from rosemary and green tea protect the skin from the harmful effects of free radicals while red clover restores the skin's youthful elasticity and resilience by stimulating natural collagen production. Particularly suited to warmer weather, this lotion will not stain your clothes or leave you feeling sticky.
